

1) 3,6,9,12,15,

The next 3 terms are 18, 21, 24

- Add 3 to find each new term.

2) 25, 22,19,16,13

The next 3 terms are 10, 7, 4

- Subtract 3 to find each new term.

3) 10,100,1 000,10 000,

The next 3 terms are 100 000,

1 000 000, 10 000 000

- Multiply by 10 to find each new term.

4) 5000, 4500, 4000, 3500,

The next 3 terms are 3000, 2500,

2000

- Subtract 500 to find each new term.

5) 1, 4, 3, 6, 5, 8, 7,

The next 3 terms are 10, 9, 12

- To find the next term, alternately add 3 and then subtract 1.

6) 1, 3, 9, 27

The next 3 terms are 81, 243,

729

- Multiply by 3 to find each new term.

7) 16.5, 15, 13.5, 12, 10.5

The next 3 terms are 9, 7.5, 6

Subtract by 1.5 to find each new term.
